

## Patch Set Update and Critical Patch Update January 2013 Availability Document (Doc ID 1502461.1)

---

### PURPOSE

---

This document defines the patches and minimum releases for the Database Product Suite, Fusion Middleware Product Suite, Exalogic, and Enterprise Manager Suite Critical Patch Updates and Patch Set Updates released on January 15, 2013.

### DETAILS

---

# Patch Set Update and Critical Patch Update January 2013 Availability Document

My Oracle Support Note 1502461.1

Released January 15th, 2013

This document contains the following sections:

- [Section 1, "Overview"](#)
- [Section 2, "What's New in January 2013"](#)
- [Section 3, "Patch Availability for Oracle Products"](#)
- [Section 4, "Final Patch History"](#)
- [Section 5, "Sources of Additional Information"](#)
- [Section 6, "Modification History"](#)
- [Section 7, "Documentation Accessibility"](#)

## 1 Overview

Oracle provides quarterly Security Patch Updates (SPU) to address security vulnerabilities, and Patch Set Updates (PSU) to address proactive, critical fixes and security vulnerabilities. The security vulnerabilities addressed are announced in the Advisory for January 2013, available at [http://www.oracle.com/technetwork/topics/security/cpu\\_jan2013-1515902.html](http://www.oracle.com/technetwork/topics/security/cpu_jan2013-1515902.html).

This document lists the Oracle Database, Fusion Middleware and Enterprise Manager SPU and PSU patches for product releases under error correction. The January 2013 release supersedes earlier Critical Patch Updates and Patch Set Updates for the same product releases. This document is subject to continual update after the initial release, and the changes are listed in [Section 6, "Modification History."](#) If you print this document, check My Oracle Support to ensure you have the latest version.

This section contains the following:

- [Section 1.1, "How To Use This Document"](#)
- [Section 1.2, "Terminology in the Tables"](#)
- [Section 1.3, "On-Request Patches"](#)
- [Section 1.4, "CPU Program and My Oracle Support Patch Recommendations"](#)
- [Section 1.5, "Oracle Database Security Patch Updates and Patch Set Updates"](#)

## 1.1 How To Use This Document

The following steps explain how to use this document.

### Step 1 Assess your Environments

Determine the Oracle product suites and products and their release numbers for each of your environments.

### Step 2 Read Important Announcements

Review [Section 2, "What's New in January 2013,"](#) as it lists documentation and packaging changes along with important announcements such as upcoming final patches.

### Step 3 Determine Patches to be Applied

For each environment, determine which patches need to be applied by using the tables in [Section 3, "Patch Availability for Oracle Products."](#) There is one availability table for each product suite release, such as Oracle Database 11.1.0.7, Oracle Fusion Middleware 11.1.1.5.0, and Enterprise Manager Grid Control 10.2.0.5

- The table lists the patches to be applied either to the product or to the appropriate product Oracle homes that are associated with the product suite
- The patches are listed in the order released, with newest patches listed first
- For some patches, multiple Oracle homes are listed. Apply the patch to all of the homes indicated that are applicable to your environment and only to the listed Oracle homes
- The table lists only product releases that are under Premier Support or Extended Support and are under error correction as defined in My Oracle Support [Note 209768.1](#), Database, FMW, EM Grid Control, and OCS Software Error Correction Support Policy. Patches are provided only for these releases. If you do not see the release that you have installed, then check [Table 139, "Final Patch History"](#) and contact Oracle Support for further assistance
- Patches that include security vulnerabilities announced in the current quarter's CPU Advisory, list the vulnerability CVE numbers in the Advisory Number column. If you are interested in the risk matrix for the vulnerabilities fixed in the patch, then see the CPU Advisory at <http://www.oracle.com/technetwork/topics/security/alerts-086861.html>. For patches that are listed from previous quarterly releases, the column will indicate 'Released MMM YYYY'. You can easily find which patches are new by searching for the string 'CVE' in the tables
- When a section is referenced in a table, follow the link to determine which patches to install. For example, when [Section 3.2.4, "Oracle Database"](#) is referenced, determine the Oracle Database release that is installed, and find the patches to apply in the table for that Oracle Database release in [Section 3.2.4, "Oracle Database."](#)

### Step 4 Apply the Patches

Download the patches, review the READMEs, and apply the patches according to the instructions.

### Step 5 Planning for Future Critical Patch Updates

To help you plan for future Critical Patch Updates, this document includes final patch information based on Oracle's Lifetime Support Policy and error correction policies.

[Section 2.6, "Final Patch Information \(Error Correction Policies\)"](#) in [Section 2, "What's New in January 2013,"](#) documents product releases for which final CPUs are upcoming or are being announced. In each product section, there is also an Error Correction Information Table that documents the final CPU patch for the product. Products that have reached the end of error correction are documented in [Section 4, "Final Patch History."](#)

## 1.2 Terminology in the Tables

The following terminology is used in this patch availability document and in the subsequent tables.

- BP Bundle Patch. An iterative, cumulative patch that is issued between patch sets. Bundle patches usually include only fixes, but some products may include minor enhancements.
- CPU Critical Patch Update patch. Prior to October 2012, Security Patch Update (SPU) patches were called Critical Patch Update (CPU) patches. For patches that were previously released as CPU patches, this Patch Availability

Document will continue to reference them as CPUs.

- NA Not Applicable.
- OR On-Request. The patch is made available through the On-Request program.
- PSU Patch Set Update. An iterative, cumulative patch that contains both security fixes and non-security critical fixes that are high-value and low-risk.
- SPU Security Patch Update. An iterative, cumulative patch consisting of security fixes. Formerly known as a Critical Patch Update. Note that Oracle's program for quarterly release of security fixes continues to be called the Critical Patch Update. Patches released as part of this program may be Patch Set Updates, Security Patch Updates, and Bundle Patches. Regardless of the patch type, the patches are cumulative.

### 1.3 On-Request Patches

Oracle does not release proactive patches for historically inactive releases. However, Oracle will deliver these patches when requested.

The following guidelines describe how to initiate an on-request (OR) patch.

A request may be made:

- At any time. However, a patch for a specific quarterly release, such as CPUOct2012, cannot be requested. Depending on when the request is received and processed, either the patch for the current quarterly release or the next quarterly release will be provided. Your Service Request (SR) will provide you the planned availability date for the patch.
- As long as the version is in either Premier Support or Extended Support. Once the final patch for the version has been released, an OR can be requested for up to 2 weeks after the release date. For example, if a product release is under Extended Support through the release of CPUJan2013 on January 15, 2013, then you can file a request for the product release through January 29, 2013.
- For a platform-version combination if the product or patch set is released on a platform after a quarterly release date. Oracle will provide the next patch for that platform-version combination, however you may request the current patch by following the on-request process. For example, if a patch is released for a platform on August 1, 2012, Oracle will provide the CPUOct2012 patch for that platform. You may request a CPUJul2012 patch for the platform, and Oracle will review the request and determine whether to provide CPUJul2012 or CPUOct2012.

A patch that is marked as on-request (OR) may already have been requested by another customer and be available on My Oracle Support. Before you file a Service Request (SR), check on My Oracle Support to see if the patch is already available for your platform.

### 1.4 CPU Program and My Oracle Support Patch Recommendations

My Oracle Support patch recommendation features are available on the Patches & Update tab. The patches announced in this document as part of the CPU program are classified as "Security" patch recommendations in My Oracle Support. If a new patch is being announced in this document, then the classification on any earlier patch is changed to "General", causing it to be removed from the My Oracle Support patch recommendations. If a patch has a "Security" classification, and a subsequent bundle, SPU, or PSU is released with a recommendation classification, then it will be classified as a "Security" recommendation in My Oracle Support.

Once a product release is no longer in error correction, its CPU patch information is removed from this document, but the last patch recommendation continues to be available in My Oracle Support.

### 1.5 Oracle Database Security Patch Updates and Patch Set Updates

The Database Security Patch Updates and Patch Set Updates that are released each quarter contain the same security fixes. However, they use different patching mechanisms, and Patch Set Updates include both security and recommended bug fixes. Consider the following guidelines when you are deciding to apply Patch Set Updates instead of Security Patch Updates:

- Security Patch Updates are applied only on the base release version, for example 10.2.0.4.0
- Patch Set Updates can be applied on the base release version or on any earlier Patch Set Update. For example, 11.1.0.7.2 can be applied on 11.1.0.7.1 and 11.1.0.7.0

- Once a Patch Set Update has been applied, the recommended way to obtain future security content is to apply subsequent Patch Set Updates. Reverting from an applied Patch Set Update to the Security Patch Update, while technically possible, requires significant time and effort, and therefore, is not advised. You would need to determine which individual, non-security patches that are included in the Patch Set Update are pertinent to your deployment, and then apply them after installing the Security Patch Update.
- Applying a Security Patch Update on an installation with an installed Patch Set Update is not supported

For more information on Patch Set Updates, see My Oracle Support [Note 854428.1](#), Patch Set Updates (PSUs) for Oracle Products.

## 2 What's New in January 2013

This section describes important changes in January 2013:

- [Section 2.1, "CPU Program and My Oracle Support Patch Recommendations"](#)
- [Section 2.2, "Patching Implications for CVE-2012-3137 and CVE-2012-3151"](#)
- [Section 2.3, "New Patch Nomenclature for Oracle Products"](#)
- [Section 2.4, "Oracle Database 10g R2 Patches for HP OpenVMS Alpha and Itanium"](#)
- [Section 2.5, "Oracle Database 10g R2 Patches for IBM z/OS on System z"](#)
- [Section 2.6, "Final Patch Information \(Error Correction Policies\)"](#)
- [Section 2.7, "New Minimum Product Requirements for CPUJan2013"](#)
- [Section 2.8, "Enterprise Manager Grid Control 10.2.0.5 Critical Patch Advisory Recommendations"](#)
- [Section 2.9, "Post Release CPU and PSU Patches"](#)

### 2.1 CPU Program and My Oracle Support Patch Recommendations

With the CPUJan2013 release, some patches, such as Database PSUs, WebLogic Server PSUs, and Grid Infrastructure PSUs that have previously been listed as "Other Recommendations" on My Oracle Support are now listed as "Security" recommendations. For more information, see [Section 1.4, "CPU Program and My Oracle Support Patch Recommendations."](#)

### 2.2 Patching Implications for CVE-2012-3137 and CVE-2012-3151

Patches have been released as part of the October 2012 CPU program to include fixes to protect against vulnerability CVE-2012-3137 and CVE-2012-3151.

#### CVE-2012-3137

This vulnerability affects database user accounts using SHA-1-based password verifiers for authentication. SHA-1-based password verifiers are also referred to as "11G" password versions. Database user accounts using a DES-based password verifier for authentication are unaffected. DES-based password verifiers are also referred to as "10G" password versions.

For most deployments, patching is only necessary for affected database servers for systems to be protected and to continue to function.

For a limited number of deployments, all Database clients and JDBC clients (including WebLogic Server, Fusion Middleware, Enterprise Manager, etc.) must be patched along with the Database Server; otherwise the un-patched clients will fail to connect to a patched server.

Before installing patches that address CVE-2012-3137, customers must review carefully My Oracle Support [Note 1493990.1](#), Patching for CVE-2012-3137.

#### CVE-2012-3151

CVE-2012-3151 vulnerability affects Database servers and client-only installations for versions 11.2.0.3, 11.2.0.2, 11.1.0.7, 10.2.0.5 and 10.2.0.4. It does not affect Instant Client installations for any version.

Customers are recommended to apply the applicable patches to their systems to address vulnerability CVE-2012-3151.

## 2.3 New Patch Nomenclature for Oracle Products

Beginning October 2012, Critical Patch Update (CPU) patches are now called Security Patch Update (SPU) patches. The patches continue to be released as part of the overall Oracle Critical Patch Update (CPU) Program. For more information, see My Oracle Support [Note 1430923.1](#), New Patch Nomenclature for Oracle Products.

For patches that were previously released as CPU patches, this Patch Availability Document will continue to reference them as CPUs. New patches will use the new nomenclature, Security Patch Update (SPU).

## 2.4 Oracle Database 10g R2 Patches for HP OpenVMS Alpha and Itanium

Oracle released Database 10.2.0.5 Patch Set for HP OpenVMS Alpha and Itanium on October 31st, 2012. Both versions can be downloaded from My Oracle Support [Patch 8202632](#).

The PSU 10.2.0.5.9 [Patch 14275629](#) has also been released to include all content up to and including Database PSU 10.2.0.5.9, both security and non-security fixes.

CPUJan2013 will be the final release of the 10.2.0.4 PSU for both HP OpenVMS Alpha and Itanium.

## 2.5 Oracle Database 10g R2 Patches for IBM z/OS on System z

Oracle released Database 10.2.0.5 Bundle Patch 1 for IBM z/OS on System z on October 30th, 2012. It can be downloaded from My Oracle Support [Patch 14798451](#).

The 10.2.0.5 Bundle Patch 1 for IBM z/OS on System z includes all Database PSU 10.2.0.5.9 content, both security and non-security fixes.

CPUJan2013 will be the final release of the 10.2.0.3 SPU patch for IBM z/OS on System z.

## 2.6 Final Patch Information (Error Correction Policies)

The Final patch is the last CPU/PSU release for which the product release is under error correction. Final patches for upcoming releases, as well as newly scheduled final patches, are listed in the following sections.

Final patches scheduled for January 2013:

- Oracle Business Intelligence Enterprise Edition 11.1.1.5.0
- Oracle Business Intelligence Publisher 11.1.1.5.0
- Oracle Complex Event Processing and WebLogic Event Server 11.1.1.4.0
- Oracle Database 10.2.0.4 for HP Open VMS-Alpha, and VMS-Itanium
- Oracle Database 10.2.0.3 for IBM z/OS on System z
- Oracle Event Processing 11.1.1.4.0
- Oracle FatWire Content Server (including Satellite Server) 7.5
- Oracle FatWire Content Server (including Satellite Server) 7.0.3
- Oracle FatWire Content Server (including Satellite Server) 7.0.2
- Oracle FatWire Content Server (including Satellite Server) 7.0.1
- Oracle FatWire Content Server (including Satellite Server) 7.0
- Oracle FatWire Content Server (including Satellite Server) 6.3.x
- Oracle FatWire Content Server (including Satellite Server) 6.2
- Oracle FatWire Content Server (including Satellite Server) 6.1
- Oracle Fusion Middleware 11.1.1.5.0
- Oracle Fusion Middleware 11.1.1.4.0 for Portal, Forms, Reports and Discoverer
- Oracle Map Viewer 11.1.1.5.0

- Universal Content Management 7.5.2

Final Patches scheduled for April 2013:

- Oracle Audit Vault 10.2.3.2
- WebLogic Communications Platform/WebLogic SIP Server 2.x
- WebLogic Network Gatekeeper 2.x

Newly Scheduled final patches:

- Oracle Database 11.2.0.2, October 2013

For additional final patch history information, see [Table 139](#). For information on the error correction support policy for patches, refer to My Oracle Support [Note 209768.1](#), Database, FMW, EM Grid Control, and OCS Software Error Correction Support Policy.

## 2.7 New Minimum Product Requirements for CPUJan2013

The following is new for CPUJan2013:

- The new minimum version for Oracle Database Appliance is 2.5.0.0.0

## 2.8 Enterprise Manager Grid Control 10.2.0.5 Critical Patch Advisory Recommendations

In Enterprise Manager Grid Control 10.2.0.5, Critical Patch Advisory recommendations are displayed through the Deployments page in the Grid Control Console. As of July 1, 2013, these CPU recommendations will no longer be available through the Enterprise Manager 10g console. For more information, see My Oracle Support [Note 1490312.1](#).

## 2.9 Post Release CPU and PSU Patches

- Grid Infrastructure PSU 11.2.0.3.5 for HP-UX Itanium  
Available: 18-January-2013
- Database 10.2.0.5 Bundle Patch 2 for IBM z/OS on System Z  
Available: 18-January-2013
- Database PSU 10.2.0.4.15 on Apple Max OS X (Intel)  
Available: 22-January-2013

# 3 Patch Availability for Oracle Products

This section contains the following:

- [Section 3.1, "Oracle Collaboration"](#)
- [Section 3.2, "Oracle Database"](#)
- [Section 3.3, "Oracle Enterprise Manager"](#)
- [Section 3.4, "Oracle Fusion Middleware"](#)
- [Section 3.5, "Tools"](#)

## 3.1 Oracle Collaboration

This section contains the following:

- [Section 3.1.1, "Patch Availability Information for Oracle Collaboration Suite"](#)

### 3.1.1 Patch Availability Information for Oracle Collaboration Suite

Oracle Collaboration Suite homes contain database and application server homes. For more information on Oracle Database and Oracle Fusion Middleware Critical Patch Updates that apply to Oracle Collaboration Suite homes, see My Oracle Support [Note 559534.1](#) Applying Critical Patch Updates to Collaboration Suite 10g.

[Table 1](#) describes the Error Correction information for Oracle Collaboration Suite.

Table 1 Error Correction information for Oracle Collaboration Suite

| Patch Information | 10.1.x    | Comments |
|-------------------|-----------|----------|
| Final Patch       | July 2013 |          |

[Table 2](#) describes the available patches for Oracle Collaboration Suite.

Table 2 Patch Availability for Oracle Collaboration Suite

### 3.2 Oracle Database

This section contains the following:

- [Section 3.2.1, "Oracle APEX Listener"](#)
- [Section 3.2.2, "Oracle Application Express"](#)
- [Section 3.2.3, "Oracle Audit Vault"](#)
- [Section 3.2.4, "Oracle Database"](#)
- [Section 3.2.5, "Oracle Database Appliance"](#)
- [Section 3.2.6, "Oracle Database Mobile/Lite Server"](#)
- [Section 3.2.7, "Oracle Fusion Middleware Utilities for Oracle Databases"](#)
- [Section 3.2.8, "Oracle Secure Backup"](#)
- [Section 3.2.9, "Oracle Secure Enterprise Search"](#)
- [Section 3.2.10, "Oracle TimesTen"](#)
- [Section 3.2.11, "Oracle Workflow Server"](#)

#### 3.2.1 Oracle APEX Listener

[Table 3](#) describes the Error Correction information for Oracle APEX Listener 1.1.4.

Table 3 Error Correction information for Oracle APEX Listener 1.1.4

| Patch Information | 1.1.4 | Comments |
|-------------------|-------|----------|
| Final Patch       | -     |          |

[Table 4](#) describes the minimum product requirements for Oracle APEX Listener. Critical Patch Update security vulnerabilities are fixed in the listed releases. For Oracle APEX Listener downloads and installation instructions, see <http://www.oracle.com/technetwork/developer-tools/apex-listener/downloads/index.html>.

Table 4 Minimum Product Requirements for Oracle APEX Listener

| Component            | Release | Advisory Number    | Comments |
|----------------------|---------|--------------------|----------|
| Oracle APEX Listener | 1.1.4   | Released July 2012 |          |

#### 3.2.2 Oracle Application Express

[Table 5](#) describes the Error Correction information for Oracle Application Express.

Table 5 Error Correction information for Oracle Application Express

| Patch Information | 4.1 | Comments |
|-------------------|-----|----------|
|                   |     |          |

|             |           |  |
|-------------|-----------|--|
| Final patch | July 2016 |  |
|-------------|-----------|--|

[Table 6](#) describes the minimum product requirements for Oracle Application Express. Critical Patch Update security vulnerabilities are fixed in the listed releases. For Oracle Application Express downloads and installation instructions, see [http://www.oracle.com/technology/products/database/application\\_express/download.html](http://www.oracle.com/technology/products/database/application_express/download.html).

Table 6 Minimum Product Requirements for Oracle Application Express

| Component                  | Release     | Advisory Number     | Comments |
|----------------------------|-------------|---------------------|----------|
| Oracle Application Express | 4.1.1.00.23 | Released April 2012 |          |

### 3.2.3 Oracle Audit Vault

[Table 7](#) describes the Error Correction information for Oracle Audit Vault.

Table 7 Error Correction information for Oracle Audit Vault

| Patch Information | 10.3         | 10.2.3.2   | Comments |
|-------------------|--------------|------------|----------|

### 3.2.4 Oracle Database

This section contains the following:

- [Section 3.2.4.1, "Patch Availability for Oracle Database"](#)
- [Section 3.2.4.2, "Oracle Database 11.2.0.3"](#)
- [Section 3.2.4.3, "Oracle Database 11.2.0.2"](#)
- [Section 3.2.4.4, "Oracle Database 11.1.0.7"](#)
- [Section 3.2.4.5, "Oracle Database 10.2.0.5"](#)
- [Section 3.2.4.6, "Oracle Database 10.2.0.4"](#)
- [Section 3.2.4.7, "Oracle Database 10.2.0.3"](#)

#### 3.2.4.1 Patch Availability for Oracle Database

For Oracle Database 10.2.0.4 and later releases, customers have the option to install the Security Patch Update (SPU) or the Patch Set Update (PSU). Both patch types are cumulative patches. The PSU includes the security vulnerability bug fixes, as well as additional non-security bug fixes recommended by Oracle. For more information on PSU patches, see My Oracle Support [Note 854428.1](#), Patch Set Updates (PSUs) for Oracle Products.

For the Microsoft Windows platforms, Oracle Database patches are released as cumulative patch bundles. You may install the indicated patch or [later](#) bundle in the Database Windows bundle series. The Windows patch bundles include the security vulnerability bug fixes, the PSU recommended non-security bug fixes, and other customer-requested bug fixes.

#### 3.2.4.2 Oracle Database 11.2.0.3

[Table 10](#) describes the Error Correction information for Oracle Database 11.2.0.3.

Table 10 Error Correction information for Oracle Database 11.2.0.3

| Patch Information        | 11.2.0.3   | Comments |
|--------------------------|--|----------|
| Final patch              | -  |          |
| SPU On-Request platforms | HP-UX PA RISC<br>IBM: Linux on System Z<br>32-bit client-only platforms except Linux x86 |          |
| PSU On-Request platforms | 32-bit client-only platforms except Linux x86  |          |

## 3.3 Oracle Enterprise Manager

This section contains the following:

- [Section 3.3.1, "Oracle Application Performance Management"](#)
- [Section 3.3.2, "Oracle Database Management Plug-in \(12.1.0.x\)"](#)
- [Section 3.3.3, "Oracle Enterprise Manager Cloud Control 12c Release 2 \(12.1.0.2\),"](#)
- [Section 3.3.4, "Oracle Enterprise Manager Cloud Control 12c Release 1 \(12.1.0.1\)"](#)
- [Section 3.3.5, "Oracle Enterprise Manager Grid Control 11g \(11.1.0.1\)"](#)
- [Section 3.3.6, "Oracle Enterprise Manager Grid Control 10g \(10.2.0.5\)"](#)
- [Section 3.3.7, "Oracle Real User Experience Insight"](#)

### 3.3.1 Oracle Application Performance Management

This section contains the following:

- [Section 3.3.1.1, "Oracle Application Performance Management 12.1.0.2"](#)
- [Section 3.3.1.2, "Oracle Application Performance Management 11.1.0.5"](#)
- [Section 3.3.1.3, "Oracle Application Performance Management 6.5.5"](#)

#### 3.3.1.1 Oracle Application Performance Management 12.1.0.2

[Table 35](#) describes Error Correction information for Oracle Application Performance Management 12.1.0.2.

Table 35 Error Correction information for Oracle Application Performance Management 12.1.0.2.

| Patch Information | 12.1.0.2  | Comments |
|-------------------|-----------|----------|
| Final Patch       | July 2013 |          |

| Patch Information        | 12.1.0.2 | Comments |
|--------------------------|----------|----------|
| CPU On-Request platforms |          |          |

[Table 36](#) describes the available patches for Oracle Application Performance Management 12.1.0.2.

Table 36 Patch Availability for Oracle Application Performance Management 12.1.0.2

| Product Version | Patch  | Advisory Number                             | Comments |
|-----------------|--|---|----------|
| 12.1.0.2        | BP 12.1.0.2.7 <a href="#">Patch 15961425</a> | CVE-2013-0359, CVE-2013-0360, CVE-2013-0396 |          |

### 3.3.1.2 Oracle Application Performance Management 11.1.0.5

[Table 37](#) describes Error Correction information for Oracle Application Performance Management 11.1.0.5

Table 37 Error Correction information for Oracle Application Performance Management 11.1.0.5

| Patch Information        | 11.1.0.5     | Comments |
|--------------------------|--------------|----------|
| Final Patch              | January 2019 |          |
| CPU On-Request platforms |              |          |

[Table 38](#) describes the available patches for Oracle Application Performance Management 11.1.0.5

Table 38 Patch Availability for Oracle Application Performance Management 11.1.0.5

| Product Version | Patch  | Advisory Number                             | Comments |
|-----------------|--|---|----------|
| 11.1.0.5        | BP 11.1.0.5.6 <a href="#">Patch 16069278</a> | CVE-2013-0359, CVE-2013-0360, CVE-2013-0396 |          |

### 3.3.1.3 Oracle Application Performance Management 6.5.5

[Table 39](#) describes Error Correction information for Oracle Application Performance Management.

Table 39 Error Correction information for Oracle Application Performance Management 6.5.5

| Patch Information        | 6.5.5      | Comments |
|--------------------------|------------|----------|
| Final Patch              | April 2014 |          |
| CPU On-Request platforms |            |          |

[Table 40](#) describes the available patches for Oracle Application Performance Management 6.5.5.

Table 40 Patch Availability for Oracle Application Performance Management 6.5.5

| Product Version | Patch                                     | Advisory Number                             | Comments |
|-----------------|---|---|----------|
| 6.5.5           | BP 6.5.5.4 <a href="#">Patch 16068940</a> | CVE-2013-0359, CVE-2013-0360, CVE-2013-0396 |          |

### 3.3.2 Oracle Database Management Plug-in (12.1.0.x)

[Table 41](#) describes Error Correction information for Oracle Database Management Plug-in (12.1.0.x).

Table 41 Error Correction information for Oracle Database Management Plug-in (12.1.0.x)

| Patch Information        | 12.1.0.2 | 12.1.0.1     | Comments |
|--------------------------|----------|--------------|----------|
| Final Patch              | -        | January 2013 |          |
| PSU On-Request Platforms | -        | -            |          |

[Table 42](#) describes the available patches for Oracle Database Management Plug-in (12.1.0.x).

### 3.4.4 Oracle Business Intelligence Enterprise Edition

[Table 59](#) describes the Error Correction information for Oracle Business Intelligence Enterprise Edition.

Table 59 Error Correction information for Oracle Business Intelligence Enterprise Edition

| Patch Information | 11.1.1.6.2 | 11.1.1.6.0 | 11.1.1.5.0 | 10.1.3.4.2 | Comments |
|-------------------|------------|------------|------------|------------|----------|
|-------------------|------------|------------|------------|------------|----------|

|             |   |   |              |   |  |
|-------------|---|---|--------------|---|--|
| Final Patch | - | - | January 2013 | - |  |
|-------------|---|---|--------------|---|--|

[Table 60](#) describes the available patches for Oracle Business Intelligence Enterprise Edition.

Customers on earlier versions of Oracle Business Intelligence Enterprise Edition 10.x will need to apply 10.1.3.4.1 and then apply the patch.

Table 60 Patch Availability for Oracle Business Intelligence Enterprise Edition

| Product Home | Patch                             | Advisory Number       | Comments    |
|--------------|-----------------------------------|-----------------------|-------------|
| 11.1.1.6.2   | BP <a href="#">Patch 14630670</a> | Released October 2012 | BIP patch   |
| 11.1.1.6.0   | BP <a href="#">Patch 14630670</a> | Released October 2012 | BIP patch   |
| 11.1.1.5.0   | BP <a href="#">Patch 14691557</a> | Released October 2012 | BIP patch   |
| 10.1.3.4.2   | BP <a href="#">Patch 14625193</a> | Released October 2012 | BIP patch   |
| 11.1.1.5.0   | BP <a href="#">Patch 12830486</a> | Released October 2011 | OBIEE Patch |

### 3.4.5 Oracle Business Intelligence Publisher

[Table 61](#) describes the Error Correction information for Oracle Business Intelligence Publisher.

Table 61 Error Correction information for Oracle Business Intelligence Publisher

| Patch Information | 11.1.1.6.2 | 11.1.1.6.0 | 11.1.1.5.0   | 10.1.3.4.2 | Comments |
|-------------------|------------|------------|--------------|------------|----------|
| Final Patch       | -          | -          | January 2013 | -          |          |

[Table 62](#) describes the available patches for Oracle Business Intelligence Publisher.

Customers on earlier versions of Oracle Business Intelligence Publisher 10.x will need to apply 10.1.3.4.1 and then apply the patch.

Table 62 Patch Availability for Oracle Business Intelligence Publisher

| Product Home | Patch                             | Advisory Number       | Comments  |
|--------------|-----------------------------------|-----------------------|---|
| 11.1.1.6.2   | BP <a href="#">Patch 14630670</a> | Released October 2012 | BIP patch   |
| 11.1.1.6.0   | BP <a href="#">Patch 14630670</a> | Released October 2012 | BIP patch   |
| 11.1.1.5.0   | BP <a href="#">Patch 14691557</a> | Released October 2012 | BIP patch   |
| 10.1.3.4.2   | BP <a href="#">Patch 14625193</a> | Released October 2012 | See My Oracle Support <a href="#">Note 797057.1</a> , Overview of Available Update Patches for Oracle BI Publisher Enterprise 10g |

### 3.4.6 Oracle Business Process Management

Follow the special instructions below to download Oracle Business Process Management patches.

1. Click Patches & Updates after logging into My Oracle Support.
2. Search for Oracle Business Process Management Suite.
3. Search for the required BPM release by clicking Select up to 10.
4. Select the patch with the build number that is indicated in [Table 64](#), or the patch with higher build number than what is indicated for the platform you are about to update, for example: EnterpriseJ2EE, Studio, or EnterpriseSA.
5. Download the patch.

[Table 63](#) describes the Error Correction information for Oracle Business Process Management.

Table 63 Error Correction information for Oracle Business Process Management

| Patch Information | 10.3.2 | 10.3.1 | 6.0.5     | Comments |
|-------------------|--------|--------|-----------|----------|
| Final Patch       | -      | -      | July 2014 |          |

[Table 64](#) describes the available patches for Oracle Business Process Management.

Table 64 Patch Availability for Oracle Business Process Management

| Product Home | Patch  | Advisory Number    | Comments  |
|--------------|--------|--------------------|---|
| BPM 10.3.2   | 100375 | Released July 2010 | See the instructions above on how to download the patch |
| BPM 10.3.1   | 100258 | Released July 2010 | See the instructions above on how to download the patch |
| BPM 6.0.5    | 100247 | Released July 2010 | See the instructions above on how to download the patch |

### 3.4.7 Oracle Communications Converged Application Server

[Table 65](#) describes the Error Correction information for Oracle Communications Converged Application Server.

Table 65 Error Correction information for Oracle Communications Converged Application Server

| Patch Information | 5.0       | 4.0       | Comments |
|-------------------|-----------|-----------|----------|
| Final Patch       | July 2018 | July 2015 |          |

[Table 66](#) describes the available patches for Oracle Communications Converged Application Server. See also the underlying product stack tables for any applicable patches. Refer to comments section and apply the patch to the respective product home.

Table 66 Patch Availability for Oracle Communications Application Server

| Oracle Communications Converged Application Server | Patch | Advisory Number | Comments |
|--|-------|-----------------|----------|
|  |       |                 |          |

|     |                                    |                       |                                |
|-----|------------------------------------|-----------------------|--------------------------------|
| 5.0 | CPU <a href="#">Patch 12875001</a> | Released October 2011 | WLS 10.3.3.0 JMS patch         |
|     | CPU <a href="#">Patch 12875006</a> | Released October 2011 | WLS 10.3.3.0 WebServices patch |

#### 3.4.16 Oracle Identity Access Management

For the appropriate product versions listed below, refer to the corresponding Oracle Fusion Middleware patch availability sections that contain information on Error Correction, and for the patches to apply. Not all homes that are listed in those sections might be present in the Oracle Identity Access Management installation. Only the relevant homes from those tables need to be patched.

[Table 93](#) describes the available patches for Oracle Identity Access Management.

Table 93 Patch Availability information for Oracle Identity Access Management

| Product Home                                      | Patches  | Comments |
|---|--|----------|
| Oracle Identity Access Management 11.1.2.0 home   | See <a href="#">Section 3.4.13.2, "Patch Availability for Oracle Fusion Middleware 11.1.2.0"</a>         |          |
| Oracle Identity Access Management 11.1.1.5.0 home | See Section <a href="#">Section 3.4.13.4, "Patch Availability for Oracle Fusion Middleware 11.1.1.5"</a> |          |

### 3.4.17 Oracle Identity Management

For the appropriate product versions listed below, refer to the corresponding Oracle Fusion Middleware patch availability sections that contain information on Error Correction, and for the patches to apply. Not all homes that are listed in those sections might be present in the Oracle Identity Management installation. Only the relevant homes from those tables need to be patched.

[Table 94](#) describes the available patches for Oracle Identity Management.

Table 94 Patch Availability information for Oracle Identity Management

| Product Home                               | Patches  | Comments |
|--|--|----------|
| Oracle Identity Management 11.1.1.6.0 home | See Section <a href="#">Section 3.4.13.3, "Patch Availability for Oracle Fusion Middleware 11.1.1.6"</a>                                       |          |
| Oracle Identity Management 11.1.1.5.0 home | See Section <a href="#">Section 3.4.13.4, "Patch Availability for Oracle Fusion Middleware 11.1.1.5"</a>                                       |          |
| Oracle Identity Management 11.1.1.4.0 home | See Section <a href="#">Section 3.4.13.5, "Patch Availability for Oracle Fusion Middleware 11.1.1.4 Portal, Forms, Reports and Discoverer"</a> |          |

### 3.4.18 Oracle Identity Management Connector

[Table 95](#) describes the Error Correction information for Oracle Identity Management Connector.

Table 95 Error Correction information for Oracle Identity Management Connector

| Patch Information | 9.1.0.4    | Comments |
|-------------------|------------|----------|
| Final Patch       | April 2017 |          |

[Table 96](#) describes the available patches for Oracle Identity Manager.

Table 96 Patch Availability for Oracle Identity Management Connector

| Product Home | Patch                              | Advisory Number     | Comments |
|--------------|------------------------------------|---------------------|----------|
| 9.1.0.4      | CPU <a href="#">Patch 13636081</a> | Released April 2012 |          |

### 3.4.19 Oracle Identity Manager

[Table 97](#) describes the Error Correction information for Oracle Identity Manager.

Table 97 Error Correction information for Oracle Identity Manager

| Patch Information | 11.1.1.5     | 11.1.1.3     | 9.1.0.2      | Comments |
|-------------------|--------------|--------------|--------------|----------|
| Final Patch       | January 2013 | January 2012 | October 2013 |          |

[Table 98](#) describes the available patches for Oracle Identity Manager.

Table 98 Patch Availability for Oracle Identity Manager

| Product Home | Patch                              | Advisory Number     | Comments  |
|--------------|------------------------------------|---------------------|---|
| 11.1.1.5.0   | CPU <a href="#">Patch 13399365</a> | Released April 2012 | 11.1.1.5.0 Bundle patch 2 or any later bundle patch |

|-------------------|------------|--------------|------------|----------|
| Final Patch       | -          | January 2013 | -          |          |

[Table 105](#) describes the available patches for Oracle Map Viewer.

Table 105 Patch Availability for Oracle Map Viewer

| Product Home | Patch                              | Advisory Number    | Comments |
|--------------|------------------------------------|--------------------|----------|
| 11.1.1.6.0   | CPU <a href="#">Patch 14065245</a> | Released July 2012 |          |
| 11.1.1.5.0   | CPU <a href="#">Patch 13997309</a> | Released July 2012 |          |
| 10.1.3.1.0   | CPU <a href="#">Patch 13997316</a> | Released July 2012 |          |

### 3.4.24 Oracle Outside In Technology

[Table 106](#) describes the Error Correction information for Oracle Outside In Technology.

Table 106 Error Correction information for Oracle Outside In Technology

| Patch Information | 8.4 | 8.3.7     | Comments |
|-------------------|-----|-----------|----------|
| Final Patch       | -   | July 2013 |          |

[Table 107](#) describes the available patches for Oracle Outside in Technology.

Table 107 Patch Availability for Oracle Outside In Technology

| Product Home                       | Patch                              | Advisory Number              | Comments |
|------------------------------------|------------------------------------|------------------------------|----------|
| Oracle Outside In Technology 8.4   | CPU <a href="#">Patch 15942025</a> | CVE-2013-0393, CVE-2013-0418 |          |
| Oracle Outside In Technology 8.3.7 | CPU <a href="#">Patch 15942012</a> | CVE-2013-0393, CVE-2013-0418 |          |

### 3.4.25 Oracle Portal, Forms, Reports, and Discoverer 11g Release 1

For the appropriate product versions listed below, refer to the corresponding Oracle Fusion Middleware patch availability sections that contain information on Error Correction, and for the patches to apply. Not all homes that are listed in those sections might be present in the Oracle Portal, Forms, Reports, and Discoverer 11g Release 1 installation. Only the relevant homes from those tables need to be patched.

[Table 108](#) describes the available patches for Oracle Portal, Forms, Reports, and Discoverer 11g Release 1.

Table 108 Patch Availability information for Oracle Portal, Forms, Reports, and Discoverer 11g Release 1

| Product Home   | Patches  | Comments |
|--|--|----------|
| Oracle Portal, Forms, Reports and Discoverer 11.1.1.6.0 home | See Section <a href="#">Section 3.4.13.3, "Patch Availability for Oracle Fusion Middleware 11.1.1.6"</a>                                       |          |
| Oracle Portal, Forms, Reports and Discoverer 11.1.1.4.0 home | See Section <a href="#">Section 3.4.13.5, "Patch Availability for Oracle Fusion Middleware 11.1.1.4 Portal, Forms, Reports and Discoverer"</a> |          |

### 3.4.26 Oracle Forms and Reports 11g Release 2

For the appropriate product versions listed below, refer to the corresponding Oracle Fusion Middleware patch availability sections that contain information on Error Correction, and for the patches to apply. Not all homes that are listed in those sections might be present in the Oracle Forms and Reports 11g Release 2 installation. Only the relevant homes from those tables need to be patched.

[Table 113](#) describes the available patches for Oracle Forms and Reports 11g Release 2.

Table 109 Patch Availability information for Oracle Forms and Reports 11g Release 2

| Product Home                           | Patches  | Comments |
|--|--|----------|
| Oracle Forms and Reports 11.1.2.1 home | See <a href="#">Section 3.4.13.1, "Patch Availability for Oracle Fusion Middleware 11.1.2.1"</a> |          |
| Oracle Forms and Reports 11.1.2.0 home | See <a href="#">Section 3.4.13.2, "Patch Availability for Oracle Fusion Middleware 11.1.2.0"</a> |          |

### 3.4.27 Oracle SOA Suite

For the appropriate product versions listed below, refer to the corresponding Oracle Fusion Middleware patch availability sections that contain information on Error Correction, and for the patches to apply. Not all homes that are listed in those sections might be present in the Oracle SOA Suite installation. Only the relevant homes from those tables need to be patched.

[Table 110](#) describes the available patches for Oracle SOA Suite.

Table 110 Patch Availability information for Oracle SOA Suite

| Product Home                     | Patches  | Comments |
|----------------------------------|--|----------|
| Oracle SOA Suite 11.1.1.6.0 home | See <a href="#">Section 3.4.13.3, "Patch Availability for Oracle Fusion Middleware 11.1.1.6"</a> |          |
| Oracle SOA Suite 11.1.1.5.0 home | See <a href="#">Section 3.4.13.4, "Patch Availability for Oracle Fusion Middleware 11.1.1.5"</a> |          |

### 3.4.28 Oracle Single Sign-On/Delegated Administration Services

For the appropriate product versions listed below, refer to the corresponding Oracle Fusion Middleware patch availability sections that contain information on Error Correction, and for the patches to apply. Not all homes that are listed in those sections might be present in the Oracle Single Sign-On/Delegated Administration Services installation. Only the relevant homes from those tables need to be patched.

[Table 111](#) describes the available patches for Oracle Single Sign-On/Delegated Administration Services.

Table 111 Patch Availability information for Oracle Single Sign-On/Delegated Administration Services

| Product Home   | Patches  | Comments |
|--|--|----------|
| Oracle Single Sign-On / Delegated Administration Services home | See <a href="#">Section 3.4.13.3, "Patch Availability for Oracle Fusion Middleware 11.1.1.6"</a>                                       |          |
| Oracle Single Sign-On / Delegated Administration Services home | See <a href="#">Section 3.4.13.5, "Patch Availability for Oracle Fusion Middleware 11.1.1.4 Portal, Forms, Reports and Discoverer"</a> |          |

### 3.4.29 Oracle Web-Tier 11g Utilities

For the appropriate product versions listed below, refer to the corresponding Oracle Fusion Middleware patch availability sections that contain information on Error Correction, and for the patches to apply. Not all homes that are listed in those sections might be present in the Oracle Web-Tier 11g Utilities installation. Only the relevant homes from those tables need to be patched.

[Table 112](#) describes the available patches for Oracle Web-Tier 11g Utilities.

Table 112 Patch Availability information for Oracle Web-Tier 11g Utilities

| Product Home                                  | Patches  | Comments |
|---|--|----------|
| Oracle Web-Tier 11g Utilities 11.1.1.6.0 home | See <a href="#">Section 3.4.13.3, "Patch Availability for Oracle Fusion Middleware 11.1.1.6"</a> |          |

| Product Home                                  | Patches  | Comments |
|---|--|----------|

### 3.4.35 Oracle WebCenter Suite

For the appropriate product versions listed below, refer to the corresponding Oracle Fusion Middleware patch availability sections that contain information on Error Correction, and for the patches to apply. Not all homes that are listed in those sections might be present in the Oracle WebCenter Suite installation. Only the relevant homes from those tables need to be patched.

[Table 122](#) describes the available patches for Oracle WebCenter Suite.

Table 122 Patch Availability information for Oracle WebCenter Suite

| Product Home | Patches | Comments |
|--------------|---------|----------|
|--------------|---------|----------|

|  |  |  |
|--|--|--|
| Oracle WebCenter Suite 11.1.1.6.0 home | See <a href="#">Section 3.4.13.3, "Patch Availability for Oracle Fusion Middleware 11.1.1.6"</a> |  |
| Oracle WebCenter Suite 11.1.1.5.0 home | See <a href="#">Section 3.4.13.4, "Patch Availability for Oracle Fusion Middleware 11.1.1.5"</a> |  |

### 3.4.36 Oracle WebLogic Portal

[Table 123](#) describes the Error Correction information for Oracle WebLogic Portal.

Table 123 Error Correction information for Oracle WebLogic Portal

| <b>Patch Information</b> | <b>10.3.2.0</b> | <b>10.2.1.0</b> | <b>10.0.1.0</b> | <b>9.2.3.0</b> | <b>Comments</b> |
|--------------------------|-----------------|-----------------|-----------------|----------------|-----------------|
| Final Patch              | January 2017    | January 2015    | January 2015    | October 2013   |                 |

[Table 124](#) describes the available patches for WebLogic Portal. See also the underlying product stack tables (JRockit and WLS) for any applicable patches.

WebLogic Portal patches are cumulative to include all the prior published advisories. For more information, see My Oracle Support [Note 1355929.1](#), October 2011 Updates Introduce New WebLogic Portal (WLP) Configuration Options for SSL Session ID and SSL Filters.

WebLogic Portal 9.2.3.0 is bundled with WebLogic Server 9.2.3.0, which is out of error correction. Contact Oracle support for security patches needed for WebLogic Server 9.2.3.0

### 3.4.42 Oracle Workshop for WebLogic

[Table 134](#) describes the Error Correction information for Oracle Workshop for WebLogic.

Table 134 Error Correction information for Oracle Workshop for WebLogic

| Patch Information | 9.2.3.0      | Comments |
|-------------------|--------------|----------|
| Final Patch       | October 2013 |          |

[Table 135](#) describes the available patches for Oracle Workshop for WebLogic. See also the underlying product stack tables for any applicable patches. Refer to comments section and apply the patch to the respective product home.

Table 135 Patch Availability for Oracle Workshop for WebLogic

| Oracle Workshop for WebLogic | Patch                              | Advisory Number     | Comments   |
|------------------------------|------------------------------------|---------------------|--|
| 9.2.3.0                      | CPU <a href="#">Patch 13705400</a> | Released April 2012 | WebLogic Server 9.2.3.0 one-off patch that needs to be applied to WebLogic Server home |

### 3.4.43 Oracle Webgate

[Table 136](#) describes the Error Correction information for Oracle Webgate.

Table 136 Error Correction information for Oracle Webgate

| Patch Information    | 10.1.4.3.0  | Comments |
|----------------------|---|----------|
| Final Patch          | -   |          |
| On-Request platforms | Platform and Server combinations that are historically inactive for patching are available on-request. If the patch is not available for a particular platform, see <a href="#">Section 1.3, "On-Request Patches"</a> |          |

[Table 137](#) describes the available patches for Oracle Webgate. See also the underlying product stack tables for any applicable patches. Refer to comments section and apply the patch to the respective product home.

Table 137 Patch Availability for Oracle Webgate

| Oracle Webgate  | Patch                             | Advisory Number | Comments |
|-----------------|-----------------------------------|-----------------|----------|
| 10.1.4.3.0 home | BP <a href="#">Patch 13718105</a> | CVE-2012-5097   |          |

### 3.5 Tools

This section contains the following:

- [Section 3.5.1, "Oracle Opatch"](#)

#### 3.5.1 Oracle Opatch

[Table 138](#) describes the minimum product requirements for Oracle OPatch. The CPU security vulnerabilities are fixed in the listed release and later releases. The Oracle OPatch downloads can be found at [Patch 6880880](#).

Table 138 Minimum Product Requirements for Oracle OPatch

| Component     | Release    | Advisory Number     | Comments |
|---------------|------------|---------------------|----------|
| Oracle OPatch | 1.0.0.0.64 | Announced July 2011 |          |

## 4 Final Patch History

[Table 139](#) describes the final patch history.

The final patch is the last CPU/PSU release for which the product release is under error correction. For more information, see My Oracle Support [Note 209768.1](#), Database, FMW, EM Grid Control, and OCS Software Error Correction Support Policy.

Table 139 Final Patch History

| Release | Final Patches | Comments |
|---------|---------------|----------|
|---------|---------------|----------|

|                     |  |  |
|---------------------|--|--|
